¹Bandwidth accessible for gain adjustments during fitting.

²Hands-free communication is available with select Android™ devices, iPhone® 11 or later running iOS 15.2 or later, and iPad® running iPadOS® 15.2 or later.

³From iPhone, iPad, Mac ® with macOS® Sonoma and select Android™ devices with the Audio Streaming for Hearing Aids (ASHA) protocol.

Fitting range*

Our smallest rechargeable miniRITE style ever

Oticon Intent miniRITE is a discreet, rechargeable hearing aid with a lithium-ion battery and a new, easy-to-use charger. At 1.7 mm shorter than any previous Oticon miniRITE rechargeable style, the new miniRITE is modern and sleek, yet it features both a telecoil and a size 13 lithium-ion battery that gives hearing aid users more power between charges.

Oticon Intent miniRITE is a Made for iPhone® hearing aid and is compatible with Bluetooth® LE Audio and the streaming protocol for Android™ – ASHA. This enables hands-free calls and/or direct streaming using iPhone®, iPad®, Mac®, and select Android devices, Direct streaming and video calls are also available from select Windows PCs.*

miniFit Detect receivers

Our self-calibrating innovation gives precise gain to the user and valuable information to you about fitting, thanks to an embedded memory. Select between 4 receivers with different output performance. Lengths are available in 0-5 for non-power and 1-5 for power. The 105 receiver is only available as a custom MicroShell Detect.

The miniFit Detect receiver features a new connection point only compatible with instruments on the Sirius platform.

□ OpenBass dome
■ Mold**, Bass & Power dome

□ OpenBass dome
■ Mold**, Bass & Power dome

■ MicroShell Detect 100, Bass & Power dome

■ MicroShell Detect 105

Earpieces

miniFit Detect earpieces include standard domes and custom molds. LiteTip is available in acrylic or OtoTherm™ material. MicroMold is available in acrylic, soft silicone, or OtoTherm material. MicroShell Detect is only available in acrylic.

IP68

Proven IP68 water and dust resistant hearing aids.

*Fitting range is based on Oticon Intent 1. Fitting range for Oticon Intent 2, Intent 3 and Intent 4 is limited to 8kHz. Details available in Technical data sheets.

** Mold includes MicroShell Detect, MicroMold & LiteTip.

*Hands-free communication is available with select Android™ devices and iPhone® 11 or later running iOS 15.2 or later, and iPad® running iPadOS® 15.2 or later. Direct streaming is available with iPhone, iPad, Mac® with macOS® Sonoma and select Android™ devices with the Audio Streaming for Hearing Aids (ASHA) protocol.
